

K-LOVE Radio serves my family by providing commercial free positive, encouraging music, news and information that we cannot get on any other station. They offer prayer and counseling for hurting people. I don't have to worry about what my two year old twins may hear when we are listening. We would have no other station to turn to for these services. Our community receives messages of hope about Jesus that are desperately needed in our world and extremely important to my family. K-LOVE changes peoples lives for the better and my family would be extremely upset to have it taken away from us considering that it is run solely on donations from the public. We, the public, want and need this station. Please do not take it away from us. Thank you for hearing my voice and God bless you.
